

## Module 3: Stakeholder Engagement in Formative Research Activities

### Forum Discussion Questions

1. If you are a member of a research team, review the practices on page 28 of the GPP guidelines. Describe how your research team could fulfil at least three of the practices listed. Be sure to outline:
  - Which staff member(s) would be responsible
  - How your team might ensure adequate budget allocation for these activities
  - The process for incorporating formative research findings into plans for the upcoming trial
2. If you are a trial stakeholder, describe some specific examples of how you could be involved in the design, conduct, analysis, and results dissemination of the site's formative research activities.
